

Article number: 231 349
Description: Siemens irradiation sensor

Content: Siemens irradiation sensor, monocrystalline
Connection: 3 m long, 4-core cable, colour-coded
Protection class: IP 65
Dimensions: 100 x 80 x 33 mm (L x W x D)

Siemens irradiation sensor

The irradiation sensor is used to measure the level of irradiation directly on the PV generator.

Features

- IP65 housing
- Flame-proof cable, with UL approval
